

I believe that Air 1 radio station is an important radio station for the city of chico as well as other towns. Air 1 is important to me because the music lifts me up when I am not having a good day. The positive music that is aired on Air 1 is the only kind of music that lifts up my mood when I am down, and reminds me to not give up when I am emotionally drained. This radio station is important and if another radio station with different content took it's place, it would be detrimental to Chico. Air 1 is a wonderful radio station for kids especially because it is an alternative music station with a positive message. I believe that it is important for kids of all ages to be able to have the option of listening to a positive radio station. If Air 1 is taken away, many people, especially young people will will not have the oportunity to listen to a radio station that encourages a walk with Jesus Christ. That, I feel would be a tragedy.
